Annual Women in  
Business Summit:  
*Women in Business:  
We can do it!*

## What Are *YOUR* Risks?

**"An ounce of prevention is worth a pound of cure"**

Risk management is comprehensive. It basically consists of assessing your work situation and asking the "what ifs". What if the contract is written wrong and causes monetary damages. How do I protect myself and my employees from violent crime? Do I understand disaster recovery and continuity of operations for emergency planning? This workshop will cover an overview of topics that women in business will want to consider when evaluating risk and discuss a "no nonsense" approach to personal and employee safety.

Staci Huffaker is the Risk Management Coordinator for Mt. Hood Community College and Cherilyn Nederhiser is a lead patrol officer in Public Safety at MHCC.
