

## **Anything Goes Band**

Anything Goes is fronted by lead singer and guitarist Bobby Turner, a well known member of the Newberg music community. Bobby has also released a CD of original music, "Here's To You". Providing the solid dance rhythms are Michael Joseph on drums, John Reynolds on five-string bass and the newest member, Levi Wall on lead guitar.

Anything Goes plays a variety of classic rock tunes from the '50s through the '90s, from such artists as The Beatles, The Doors, CCR, Elton John, Santana, Neil Young and Bob Seger. While the songs are familiar, Anything Goes puts their own brilliant stamp on things. They are great musicians who work well together. Tight rhythms and excellent musicianship make for quite a show.

But don't expect to just hear the classic rock 'n roll lineup all of the time. Anything Goes likes to let anything go! Listen for some original songs from Bobby's CD along with some Country and Cajun favorites. Adding an accordion and mandolin to the sound from time to time is a plus for this band, allowing them to stretch the musical experience in pleasantly unexpected directions. They keep the audience guessing what is coming next and happily dancing the night away.

In addition, it is obvious these musicians are having fun every second they are on stage. That attitude is contagious and keeps the audience having fun too!
